PLACE  
ACQUIRED

SUPPLEMENT TO  
REPORT NO.

THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES, WITHIN THE MEANING OF TITLE 18, SECTIONS 793 AND 794, OF THE U.S. CODE, AS AMENDED. ITS TRANSMISSION OR REVELATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

50X1-HUM

- 1.

At Ruzynye Airfield there were approximately 20 C-47s, 15 IL-12s, four Ju-52s, 10 AERO-45s, and five SI-204s.

- 2.

Approximately 10 aircraft fly every day to all Communist occupied countries.

When the Czech government received several IL-12s from the USSR they were rejected because of a flutter in the wing. These aircraft were sent back to the USSR to be modified. The aircraft **originally** seated 23; after modification, they seated 18 persons; the consumption of gas was twice as much as used in a C-47 type aircraft.

- 3.

The only aircraft that are non-operational are those that do not have enough passengers to fly in them. The reason for this is that the price of flying is high; it costs approximately 700 Kcs to fly from Bratislava to Prague and about 400 Kcs to fly from Prague to Ostrava. Otherwise the aircraft are all in operational status.

- 4.

The majority of people employed at Ruzyně Airfield were Czechs. The Hungarian, Rumanian, and Polish transport agencies located at this field were managed by Russians.

5.

The only civilian aircraft maintenance installations were at Ruzyně Airfield. All CSA aircraft were repaired at Ruzyně.

all the major or minor work was done at Ruzyně. The standard of repair work was rated as good.

6.

All civilian aircraft in the CSR are marked with a Czech flag on the left side of the tail; the first two letters are always OK which is a mark for all Czech civilian aircraft. After the letters OK there are a series of letters, eg CAC, XBA and WDW.

Aircraft  
Insignia

Military

Civilian

7.

Pilots and crew members wear blue uniforms, a blue or white shirt, a black necktie, and an overseas cap. The blue jacket is double-breasted with brass buttons. These buttons were inscribed with the letters CSA and the words, Czech Airlines. The sleeves of this jacket had gold stripes, three stripes for captain, two stripes for navigator and one stripe for the crew members. The only insignia was the silver wings which were worn on the right side of the jacket and on the cap. This insignia was a pair of wings with a circle in the middle with the letters CSA inscribed thereon.

8.

On each aircraft there is one SNB member who sits in the rear of the aircraft. He is always armed. All passengers are searched before boarding the plane.
